

MOHAMMADJISSAN KHARADI

Full Stack MERN Developer

mohammadjissankharadi@gmail.com | +91 9157326553 | [linkedin.com/in/mohammadjissan-kharadi](https://www.linkedin.com/in/mohammadjissan-kharadi)

SUMMARY

Full Stack MERN Developer with hands-on experience building scalable web applications and real-time systems using MongoDB, Express.js, React.js, and Node.js. Skilled in developing REST APIs, implementing secure authentication (JWT), and optimizing backend performance. Experienced in integrating frontend and backend systems and delivering end-to-end solutions. Strong focus on performance, scalability, and real-world problem solving.

TECHNICAL SKILLS

Frontend: React.js, Next.js, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS

Backend: Node.js, Express.js, REST APIs, Socket.IO

Database: MongoDB (Aggregation, Indexing), PostgreSQL

Programming Languages: JavaScript, Python, C/C++

AI/ML & Data: NumPy, Pandas

Authentication & Security: JWT, bcrypt

Tools & Platforms: Git, GitHub, Postman, Vercel

Concepts: Web Applications, Scalable Systems, Microservices, Authentication & Authorization

WORK EXPERIENCE

Backend Engineering Intern — Digiscrypt Technologies, Bangalore (Remote)

Feb 2026 – May 2026

- Developed and optimized scalable backend services using Node.js, Express.js, and MongoDB
- Built RESTful APIs with validation, authentication (JWT), and structured error handling
- Improved API response time by 25–30% by optimizing MongoDB queries and designing efficient data models
- Integrated backend APIs with React.js frontend for seamless data flow and user experience
- Implemented secure authentication and authorization mechanisms reducing unauthorized access risks
- Designed modular and maintainable backend architecture for scalability
- Improved data retrieval performance using MongoDB indexing techniques
- Collaborated with cross-functional teams to deliver scalable web applications

PROJECTS

Real-Time Chat App (MERN Stack)

Tech Stack: MongoDB, Express.js, React.js, Node.js, Socket.IO

- Developed a scalable real-time web application using the MERN stack with WebSocket-based communication
- Implemented instant messaging using Socket.IO enabling real-time bidirectional communication
- Designed secure authentication system using JWT and bcrypt for user data protection
- Built RESTful APIs for user management, messaging, and chat history storage
- Implemented features like one-to-one messaging, online/offline status, typing indicators, and media sharing
- Deployed application on Render with production-ready configuration

MindMate AI — AI-Powered Mental Wellness Platform

Tech Stack: Node.js, React.js, AI/ML, Audio Processing

- Developed an AI-based web application for emotion detection with speech interaction
- Built secure backend APIs for session handling and AI response flow
- Implemented audio preprocessing and feature extraction for analysis
- Designed responsive frontend using React.js for smooth user experience

EDUCATION

Bachelor of Science in Information and Technology — Gokul Global University, Siddhpur, Gujarat

June 2023 – June 2026

CGPA: 8.77/10

Higher Secondary (12th) — City Higher Secondary School, Palanpur, Gujarat

June 2023

Gujarat Secondary & Higher Secondary Board —

68.93%

AWARDS AND CERTIFICATES

- National-Level Finalist, Smart India Hackathon (SIH)
- Team Lead of SSIP-Selected Startup Project
